ISN'T DETERMINED BY A
GOOD EDUCATION

Fuzzy John has thrown support to a bill that would restrict State National Support to a bill that would restrict State National Figure 1 (1) and read. Those who are strict State National for best restrict State National for States at Punta Del Estonal for work, work.

Somebody has got to work, work, merican States at Punta Del Estonal for work and states at Punta Del Estonal for work.

Somebody has got to work, work, work of the Urugay, South America, to have Cuba kicked out of the Urugay, South America, to have Cuba kicked out of the Urugay, South America, to have Cuba kicked out of the Organization of A-merican States at Punta Del Estonal for work.

Somebody has got to work, work.

Work. Reader interest, somebody has got to work, work.

Work Reader interest is not to work work of the Urugay, South America, to have Cuba kicked out of the Urugay, South America, to have Cuba kicked out of the Urugay South America, to have Cuba kicked out of the Urugay South America, to have Cuba kicked out of the Urugay South America, to have Cuba kicked out of the Urugay South America, to have Cuba kicked out of the Urugay South America, to have Cuba kicked out of the Urugay South America, to have Cuba kicked out of the Urugay South America, to have Cuba kicked out of the Urugay South America, to have Cuba kicked out of the Urugay South America, to have Cuba kicked out of the Urugay South America, to have Cuba kicked out of the Urugay South America, to have Cuba kicked out of the Urug

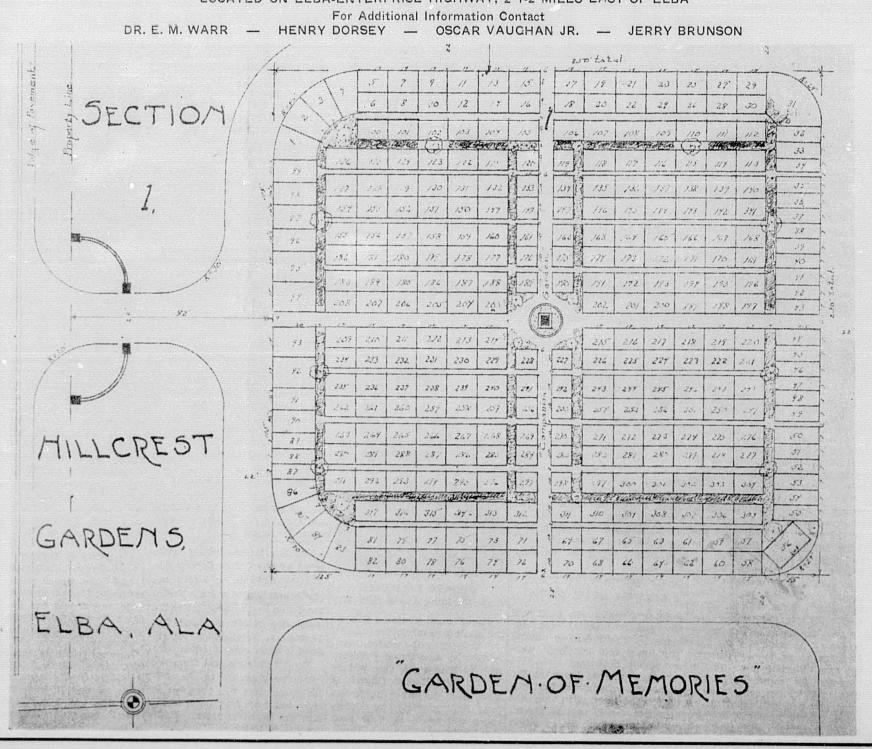

Do Electric Co-ops help keep electric costs down?

Yes. With 85 per cent of all our power business in the hands of great utilities, Rural Electrics are the most effective "counteractor" to the evils of public utility monopoly. The healthy competition of Rural Electrics helps break the grip of monopoly by introducing effective competition. This keeps electric

RAMBLING ROSES

By EARL TUCKER of the law, and entitled to month The Church of England is at-benefits. December 1959, the seven th month after he was injured, was tempting to make a revision in the the beginning month for his pay 350-year old Book of Common ments, and he received back pay Prayer. The progressives in the Church want to modernize the volume, eliminating the word "devil" wherever it appears and substituting the word "evil". As it is now it calls for "renouncing the devil and all his work." The new pledge would call for "renouncing the content of pledge would call for "renouncing

Any comments I make in this column will not have any effect on the outcome of this controversy lke To Campaign in England. In fact, I never have been able to do much with Thomasville Baptists right here at home. What I'm afraid of, though, is that this thing might spread to the United States and ultimately to my town and my church. I was raised Association town and my church. I was raised (reared to Harvard graduates) on the devil and it would be mighty Alabama's annual fund camp

frustrating this late in life to learn to combat its #1 killer, Heart D that I should have been fighting sease, will get under way February evil all these years instead of the ary 1 with a special send-off from the nation's famous heart disea Evil is something that floats victim. through the air, something that Former President Dwight D can't be seen or touched. The devil on the other hand, is something ing voluntary support for the Heart real and tangible that you can kind Fund Campaign to combat "our naof watch out for and avoid. tion's health problem." I got my first image of the devil | Eisenhower's statement was re from a 250-pound woman who help ed Mama with the washing on Mondays. This woman gave us a clear fered to Alabamians in leaflet form and concise picture of the devil by the Alabama Heart Association

and I think she was an authority on the subject. She got drunk on Saturday nights and often gave her husband a good butcher knife. Highly repentant by Monday morning. y repentant by Monday morning, not live in its shadow or have met she set about renouncing the devil it face to face." and all he stood for. She belonged to the horny - headed, pitchfork carrying school of thought and she voluntary health agencies, stating warned us that he lurked behind that "individual citizens working every bush and tree and was ready together in their organization to spring out whenever we yielded should do as much as they possibly to temptation. While I never saw can to help themselves." him in person I did, on many occasions, feel his piercing eyes look-deeply rooted in American history ing at me through the bushes and "As free citizens of a free soci

There Is NO Excuse For this Waste of Your Taxes-It Can Be Stopped!

Newspapers reported that on October 26, 1961, John F. Kennedy, President of the United States, in a statement to Cabinet officers and agency heads said:

". . . I have asked each of you to follow a most careful and frugal policy with respect to commitments and expenditures

"I am especially desirous that new programs or expansions of existing programs be undertaken with caution . . . that sound criteria are used . . . and minimum funds are spent. I much prefer that obligational authority remain uncommitted where there is any doubt that expenditures would yield substantial returns to the national interests . . . "

Despite this expression of the President the Rural Electrification Administration only six days later announced the allocation of a \$20,350,000 loan to the Alabama Electric Cooperative, Inc., most of which is to be used to build a wholly unnecessary steam plant to generate electricity for the cooperatives.

What can be the purpose of this REA loan?

When the REA was established in 1936, its avowed purpose was to provide electricity only to persons in rural areas to whom service was not available. The Act of Congress establishing REA provided and still provides that the REA Administrator is authorized to make loans "for rural electrification and the furnishing of electric energy to persons in rural areas who are not receiving central station service . . . "

The proposed steam plant will not make electric energy available to any person to whom central station service is not now available.

The late Senator Norris, one of the fathers of REA, specifically declared that no money would be loaned by REA "for the purpose of electrifying a rural area which is now supplied."

The late Speaker of the House, The Honorable Sam Rayburn, declared: "We are not in this bill intending to go out and compete with anybody. By this bill we hope to bring electrification to people who do not now have it. This bill was not written on the theory that we are going to punish anybody or parallel their lines or enter into competition with them."

Now, 26 years later, farm electrification is more than 98% complete. So what can be the purpose of this REA loan?

Not one additional farm will receive electricity

Alabama Electric Cooperative, Inc., does not have even one farm customer. Its customers are two industries, six cities, and six distributing cooperatives. This loan is a waste of your tax money that cannot be defended; it is a waste that should be stopped for these reasons:

1. This plant will not bring electricity to a single customer to whom electricity is not already available.

2. The only new customers it will serve are customers now being served by Alabama Power Company.

3. The proposed plant will not bring cheaper power to these new customers. Alabama Electric Cooperative rates to its co-op customers are much higher than the low rates Alabama Power Company charges its co-op customers.

If the cities and co-ops which are customers of Alabama Electric Cooperative had over the past seven years bought all of their power supply from Alabama Power Company instead of from the Alabama Electric Cooperative, they would have saved over \$2,000,000!

4. Alabama Power Company supplies Alabama Electric Cooperative with power at one of the lowest rates in the nation and stands ready and willing to supply it with any additional power it

5. The plant is not needed and, therefore, represents a waste of your tax

Why your taxes are so high

This allocation is called a loan, but to a large extent it is a gift of taxpayers' money because the interest it calls for-two per cent-is less than the rate that the government must pay for money it borrows.

Alabama Electric Cooperative pays neither federal nor state income taxes, although its customers paid it \$2,299,478 for electricity in 1960. The proposed plant will contribute nothing in taxes to national defense or other federal purposes. Your taxes (and ours) are high in part because cooperatives do not pay income taxes, and that deficiency must be made up by all taxpayers at a higher rate of taxation than would be necessary except for these tax exemptions.

This loan or gift of tax money to build this proposed plant will be an immediate and continung waste of tax funds, not only because no taxes will be paid to the federal government from its operation, but also because it will displace production from Alabama Power Company plants, from which the governments, federal and state, do receive taxes. In other words, this use of your tax money reduces the government's own tax

Raw example of government hostility to business

The President of the United States has also expressed concern about reports that members of his administration have been hostile to business. Here is a raw example of such hostility.

Loan can't be made without State approval

This loan cannot be made without approval by the State of Alabama through its Director of Finance. Since 1935, Alabama law has wisely provided that such a proposed loan must be approved by the state government, only after a hearing and only after finding that such loan serves some public need and is in the public interest.

Alabama Electric Cooperative, Inc., on February 5, 1962, filed an application with the State Department of Finance seeking its approval. At this hearing, it is our intention to oppose the waste represented by this proposed loan in every legitimate way. Perhaps you would like to add your protest to ours.

School Officials See No Immediate Relief **Despite Rosy Estimate**

A group of Alabama school officials pointed out at a meeting recently in Montgomery, that despite late estimates of school revenues, Alabama's education system has not emerged from the doldrums of prora tion and that there is no immediate prospect this will happen during the current fiscal year. The statement was issued fol lowing a meeting in Montgomery several weeks ago of about 300 county and city school superintendents, college officials.
